PROFESSIONAL SUMMARY

I'm an Automation Test Engineer with around 3 years of experience working on both UI and API testing. Most of my work has been with Selenium (Java), Playwright, and Cucumber, where I've built and maintained automation frameworks and handled end-to-end testing.

I've also worked with REST APIs using Postman and have a basic understanding of API automation using Rest Assured. Along with this, I'm familiar with SQL validations, Agile working environments, and CI/CD concepts using Jenkins. I enjoy solving testing challenges and improving automation coverage for stable releases.

TECHNICAL SKILLS

Languages: Java, Node.js
UI Automation: Selenium WebDriver, Playwright
Frameworks: Cucumber BDD, TestNG, POM (Page Object Model)
API Testing: Postman, REST APIs, basic knowledge of Rest Assured
Database: MySQL, SQL
Tools: Git, Maven, Selenium Grid, Jenkins (basic), PuTTY
Concepts: Agile Scrum, SDLC/STLC, OOP, cross-browser testing, defect tracking, CI/CD basics

PROFESSIONAL EXPERIENCE

Jr. Test Engineer

AQM Technologies Pvt. Ltd., Mumbai | Nov 2024 – Feb 2026

Client: SBI Life Insurance (Life Insurance Domain) & The New India Assurance (General Insurance Domain)

- Working on automation frameworks using Selenium, Java, Cucumber, and TestNG for web applications.
- Automated multiple end-to-end scenarios across insurance modules, which helped improve regression coverage significantly.
- Regularly execute large sets of automated test cases (500+), especially during release cycles.
- Perform API testing using Postman and validate responses, request handling, and backend data.
- Have basic exposure to API automation using Rest Assured while exploring automation approaches.
- Use SQL queries to validate backend data and ensure consistency across systems.
- Improved script stability by replacing static waits with better synchronization methods.
- Perform cross-browser testing to check UI behavior in different environments.
- Log and track defects and work closely with developers to get them resolved.
- Actively participate in Agile ceremonies like stand-ups, sprint planning, and reviews.

Jr. Software Engineer (Project-Based Contract)

FSI Media Private Limited, Navi Mumbai | Dec 2022 – Jul 2024

- Worked on developing and maintaining REST APIs using Node.js and Express.
- Tested around 80+ API endpoints using Postman to ensure correct functionality.
- Created basic automation flows using Playwright for a few user journeys.
- Was involved in both UI and API level testing to ensure smooth integration.
- Got exposure to CI/CD concepts and Jenkins as part of the development workflow.
- Assisted in implementing authentication (JWT) and validating secure API access.
- Collaborated with the team using Git in an Agile setup.

EDUCATION

Master of Computer Applications (MCA)

Vivekanand Education Society's Institute of Technology, Mumbai

CGPI: 8.78 | 2021 – 2023

Bachelor of Science in Information Technology (B.Sc. IT)

MGM College of Computer Science & Information Technology, Navi Mumbai

CGPI: 8.16 | 2019 – 2021

CERTIFICATIONS

ISTQB Foundation Level – ITB Board (Jan 2025)

NPTEL Swayam – Online Privacy (April 2022)

EXTRA ACTIVITIES

- Served as Class Representative during MCA
- Volunteered teaching underprivileged children
- Participated in social and community activities
